

Budget Paving

This range of paving is ideal for property developers, who need to stick to a budget, people who require a cost effective patio or just for customers who simply wish to landscape a poorly maintained garden. The colours available are: Natural, Buff and red.

Budget paving is a very practical entry-level paving, ideal for utility areas where consideration to a having a practical hardstanding area takes priority over a stylish paved area. Maybe it is a place for the wheelie bin, coal or log storage, a greenhouse or shed base. Our range of budget paving offers strength with economy and choice too.

The paving face is reversible, riven on one side and smooth on the other. You simply choose which effect you wish to create is only available in three colours. This range is well suited to projects which must be strictly kept within budget.
